Industry Leading Performance

Utilizing the most advanced compression methods to record each camera at real time, the RoadRunner system delivers industry-leading recording rates, longer recording durations and exceptional video quality.

Secure Video Clips

Video clips feature optional password protection, watermarking and 128-bit encryption to ensure video is authentic and secure. System settings are secured with password protected access-rights for up to 64 groups and 256 users.

Simultaneous Recording

The system is configured to automatically begin recording, eliminating user error and continues to record even during playback, archiving and performing administration functions.

Simple, Turn-key Installation

The system includes all the wiring and cables required, providing the option for easy do-it-yourself installation.
Lowest Cost of Ownership

The RoadRunner system can be easily upgraded and expanded. Offers a 3-year warranty, a lifetime of software updates, months of data storage and years of maintenance-free operation.

Included Software for Easy System Management

License free and included software allows for easy fleet-wide system updates. The optional GPS includes the **iSM™ (Interactive Speed and Mapping) Interface** featuring historical mapping and speed graphs. By selecting a location on the map or a desired speed, video from that location or speed is instantly provided. With automatic health-system checks and email notification for events, hard drive status and failures, the RoadRunner system provides easy system management.

Rugged • Reliable • RoadRunner ™
Digital Surveillance Systems for Public Safety Applications

The RoadRunner Digital Video Recorder delivers the highest quality video and audio recording and is backed by an industry-leading 3-year warranty. Designed and manufactured specifically for use in mobile applications, the RoadRunner system will deliver years of high quality video recording at the lowest cost of ownership. Featuring user-friendly, license-free software the system is intuitive, easy to use and designed to provide the video that you need, when you need it.

Utilizing the optional GPS feature, you can search for video based on location or speed with historical mapping location information and speed charts that provide graphical route and historical speed information. Simply select a point on the map or a selected speed for instant video access from that location or speed. The **iSM™ (Interactive Speed and Mapping)** interface provides street names and geographical data for route and stop information.

Camera Options and Accessories:

RR-CIR1
• Color Interior Camera
• Built-in Microphone
• IR Illuminators
• Standard or High Resolution
• 2.5mm, 3.6mm or 8.0mm lens

RR-CT
• Color Interior/Exterior Camera
• Vandal-Resistant
• 4-8mm Varifocal Lens
• Standard or High Resolution
• Rugged Tear Drop Shape Housing

RR-CVIR
• Color Interior Camera
• Vandal Resistant
• Built-in Microphone
• IR Illuminators

RR-CD
• Color Interior/Exterior Camera
• Vandal-Resistant
• 4-8mm Varifocal Lens
• Standard or High Resolution
• Rugged Dome Housing

RR-HDP
• Hard Disk Player / Adapter

RR-GPS
• GPS Antenna for iSM (Interactive Speed & Mapping) Interface

RR-WT200, WR200
• Wireless LAN High Powered Transmitter, Receiver

RR-ENV, RR-ENVH
• Environmental Protective Enclosure, with Heater

RR-MR160HD, 250HD, 500HD, 750HD
• Extra Removable Hard Disk Drive (160Gb, 250Gb, 500Gb, 750Gb)
